

Round inspection Cover

2024/1

Product description and areas of application

The inspection Covers are used for the installation in walls and (installation walls and facing form-work) and suspended ceilings. They are suitable for all BASWA Systems. The inspection dampers are provided with the BASWA coating material and exhibit the same surface structure as the surrounding acoustic ceiling.

Product data

Basic form	round
Item number	a 509 – a 511
Dimensions	Diameter Ø 300mm, 400mm, 600mm
Material	Anodised aluminium frame
Colour	White
Weight/Piece	depends on the dimensions

Instructions for use

Installation

Screw fittings: Ø200mm up to Ø600 mm 4 fastening clips. Screw spacing max. 200mm. The assembly is carried out on the substructure; optionally additional profiles have to be installed for the attachment.

The cut-out should be cut 10mm larger than the inspection cover diameter. Arrange the alternate frames, made of CD profiles, according to the dimensions of the inspection cover. Maintain spacing of max 10mm between the cut-out and the alternate frames. Additional suspending brackets are required, in the case of the replacement of suspended ceilings profiles.

Introduce the outdoor frame of the inspection cover into the opening, align and screw tight. Subsequently insert the inner cover and check the lock function.

Important additional information

- The inspection cover must be handled carefully and must not be deformed.
- It is of utmost importance that the edge region of the outer frame towards the substructure is taped airtight with a vapour barrier adhesive tape (Preventing air circulation, which would lead to discoloration in the edge region).

Detailed drawings are delivered on request.

Disclaimer

The aforementioned specifications, in particular the suggestions for processing and using our products, are based on our knowledge and experience in the normal case, prerequisite is that the products have been correctly stored and used. Due to the different materials, surfaces and deviating working conditions, no guarantee can be given for the result of the task or adhesion, irrespective from which legal aspect, neither from these instructions, nor from verbal advice, unless we are culpable of intentional or gross negligence.
