

D_027_en Edge formation with aluminum L angle profile white

Important:

Take into account the expansion coefficient of materials used near heat sources.

Danger that cracks form, if aluminium, steel and PVC angle profiles are used!

Acoustic panels glued front side against angle profile!

1. BASWaphon – Top surface layer
2. BASWaphon – Base primary layer
3. BASWaphon – Acoustic Panel
4. BASWafix C adhesive cement-containing mortar
5. Concrete
6. Smooth plaster painted, exposed concrete or similar
7. Aluminium angle profile, white coated with PUR
8. BASWaphon Fill seam filler
